Bsc Computer Science	
83.6	

SKILLS

Java
My Sql
Web Designing

LANGUAGE

English
Tamil

PROJECTS

✓ Student Management System Using Java

- Schools and Universities are the foundation of knowledge and an educational body on which students rely upon.
- Most schools and Universities count on an advanced software tool knows as '**Student Information System (SIS)**' to keep all their student records.
- **Front End** : Java
- **Back End** : My Sql

✓ Crop Prediction Management

- Agriculture is one of the fields where the impact is significant, considering the global crisis for food supply.
- This research investigates the potential benefits of integrating machine learning algorithms in modern agriculture.
- The main focus of these algorithms is to help optimize crop production and reduce waste through informed decisions regarding planting, watering, and harvesting crops.
- **Front End** : Python
- **Back End** : My Sql
