Courses

Full Stack Web Developement in React

As a new Full Stack Web Developer with expertise in React, I'm ready to contribute my skills and enthusiasm to build impactful web solutions.

Projects

Portfolio

My portfolio project is based on React, with basic layout HTML, CSS, Bootstrap framework.

Brandmax

Developed a B2B platform with a seller dashboard for product management and order tracking. Created a mobile app for buyers to order products and track them in real-time. Enabled efficient updates and inventory control for sellers. Utilized modern technologies for seamless, user-friendly transactions.

Web Design for Companies

- **Salona Cotspin Limited:** Designed a website showcasing yarn products, manufacturing process, and company info.
- **Abirami Electronics:** Created a modern website highlighting electronic products, services, and innovations.
- **Town and City Developers:** Developed a dynamic website featuring construction projects, expertise, and client testimonials.

Ecommerce

My E-commerce Project is a user-friendly online platform, merging frontend and backend technologies for a seamless experience.
