SUMMARY

Enthusiastic Engineering graduate looking forward to work in an environment to enhance my Professional skills and knowledge from where I will get learning environment to boost my career.

EDUCATION

Bachelor of engineering in Electronics and communication

K.Ramakrishnan college of engineering

📅 2019 - 2023 📍 Trichy

GPA

8.9 / 10

HSC

Vairams matric higher secondary school

📅 2018 - 2019 📍 Pudukkottai

PERCENTAGE

71 / 100

SSLC

SFS matric higher secondary school

📅 2016 - 2017 📍 Pudukkottai

PERCENTAGE

96 / 100

PROJECTS

An automatic paddy crop disease detection using machine learning algorithms

- Image dataset of four disease affected plants is pretrained and Image processing techniques such as K-Nearest Neighbour, InceptionV3 algorithm is used
- This model is trained and evaluation matrix report gives the F1 score and accuracy of the affected crops.

Movie website

- Developed a dynamic and responsive movie website utilizing React Router for seamless navigation.

Activity tracking website

- Designed and developed an innovative application using React, which returns the daily activity of the user.

SKILLS

HTML CSS Javascript

Frontend(ReactJS)

Backend(NodeJs ExpressJs)

Database(MongoDB-MySQL)

GIT

Java

STRENGTHS

Team Leadership

Communication

Attention to detail

EXPERIENCE

Full Stack Developer Intern

Virtusa

📅 02/2023 - 07/2023

Created a project called Currency converter using frontend development and react.js

TRAINING / COURSES

FULL STACK WEB DEVELOPMENT

Error makes clever academy

FRONTEND DEVELOPMENT

Pacific creation

ORACLE CERTIFIED ASSOCIATE,
JAVA SE 8 PROGRAMMER
