Objectives

Seeking a challenging role in a reputable organization to utilize my technical, talents and skills in teamwork for the growth of the organization as well as to enhance my knowledge about new and emerging trends in the IT sector.

Technical Skills

Languages & Technologies	Core Java, Java 8, Java 11, Java 17, J2EE (JSP and Servlet), JavaScript, AJAX and CSS
Frameworks	Spring Boot, Spring data JPA, Spring MVC and Hibernate
Database	Oracle, MySQL, PL/SQL Programming and PostgreSQL
Tools & Utilities	IntelliJ, Eclipse, Apache Maven, Postman, Swagger, SQL Developer
Web/Application Servers	Apache Tomcat 7.x/8.x, Oracle WebLogic 10/11g/12c
Version Control	GIT

Technical Expertise

- Having 3 years of experience in developing Web Applications using technologies **Java/J2EE**.
- Around 1.8 years of experience in using Frameworks like **Spring MVC/Web Flow, Spring JDBC and REST API (JSON)**.
- Around 1.3 years of experience in **HTML5, JS, CSS, PHP, AWS, Java, Bootstrap, Laravel API, AJAX and JSON**.
- Hands on experience in **Micro Services, Spring Boot, Spring Data JPA** and **PL/SQL** programming.
- Effectively communicate with clients directly to gather requirements and negotiate the project time based on the volume and resource availability

Work Experience

- Currently working as '**Assistant System Engineer**' in **Tata Consultancy Service** from February 2022 to till now.
- Worked with **Nig Software Solution**, Salem as '**Software Developer**' since November 2020 to January 2022.

Project Experience

Tata Consultancy Service

Role and Responsibility

- Have taken the complete responsibility of the application to adding new features using JSP, Spring MVC, JavaScript, Java PL/SQL Database.
- Took responsibility for production issues and maintaining the product.
- Took ownership of the full stack development.

Project – I:

August 22 – Till date

TCCL Risk project - PDAMS TCCL

Assistant System Engineer

- This project used to handle customers data who got loans and monitoring those data whether who are paying correctly or not.
- Manages borrower loan and sanction details and calculates penalty amount based on due date.
- Everyday notifying the customer through e-mail for reminding the pending due case

Project – II:

February 22 – July 22

TCCL Risk project - KYC

Assistant System Engineer Trainee

- This project used to get basic data from customer and check whether those customers are eligible for loan. based on RBI rules
- Checking customers data and who are due for re-KYC by customers rating.
- Undertake internal transaction verification on the define parameters aimed at determining credit worthiness of customer based on his history.

Nig Software Solution

Role and Responsibility

- Developed backend service with MySQL DB and API for communication with frontend.
- Created application layout and complete interface using PHP, HTML and CSS.
- Written well designed, testable and efficient code following standard software development practices.
- Took part in requirements gathering and designing of features with the product management team.

Project – I:

June 21 – January 22

Medi and Billing Software

Software Developer

- For both small and large pharmacies and stores, this software is helpful. It aids in adding products and customers and displays stock control. Then they sell the goods to that consumer after recording everything. These facts are saved in the database.
- The specifics of the bill are then entered into Log as payment information.
- There are also specifics regarding the vendor, staff, and administration of the shop.
- My work has included both accounting via the shop and accounting through the consumer.

Project – II:

November 20 – May 21

Lab Software

Software Developer

- This software is responsible for gathering information between the lab and the patient. The patient visits the lab, undergoes the examination, and receives the results.
- The details and outcomes are kept in MySQL. Following the creation of this bill, the bill's details are subsequently recorded as payment information using Log.
- I have tried everything to send these details via email, SMS, and WhatsApp. Details about lab management, lab personnel, physicians, and referrals are also included. Both accounting through the lab and account.

Achievements and Activities

- Completed Certification on **Core Java** in the Year of 2022.
- Received **Best Performance Award** in the year of 2021 in Nig Software Solution.

Education

- Completed **Bachelor of Technology** (Information Technology) - 2020 at K.S.Rangasamy College of Technology Tiruchengode with aggregate of **7.4 CGPA**.
- Completed **HSC** - 2016 in Sri Gayathiri Higher Secondary School at Salem with aggregate of **91%**.
- Completed **SSLC** - 2014 at Sri Gayathiri Higher Secondary School at Salem with aggregate of **83%**.
