**INTERNSHIPS**

**Digillium Pte.Ltd | February 2023 - May 2023**

During my 3-month internship at Digillium Pte.Ltd, I worked on an ERP project aimed at integrating and streamlining various business processes. I contributed to tasks such as requirements gathering, system configuration, and user acceptance testing. The project followed a structured implementation process, including planning, analysis, design, testing, training, and deployment phases. Throughout the internship,I gained practical experience in ERP implementation, developed skills in project management and problem-solving,and improved my communication abilities. Despite challenges like data migration complexities and user resistance to change, we successfully overcame them through effective strategies and clear communication. The project resulted in streamlined processes, improved data integrity,reduced manual effort, and enhanced reporting capabilities. This internship provided valuable insights and prepared me for future projects.
