EDUCATION

Sandip Institute of Technology and Research Centre (SITRC)

Bachelor of engineering Information Technology

CGPA: 8.44

Nashik, India.

July 2019 - July 2023

EXPERIENCE

Nucleosys Tech | Software Development Engineer

Pune, India | Oct 2023 - current

- Accomplished successful software deployment by building an admin and user management system using React, Node.js, Express.js, and MongoDB.
- Enhanced user experience and system efficiency by designing custom pages and back-end modules resulting in increased user satisfaction.
- Achieved scalable backend infrastructure to handle complex applications and workloads by developing with Node.js, Express.js, and MongoDB.

Desi QnA | Software Development Engineer Intern

WFH, India | Aug 2023 - Oct 2023

- Designed and developed a fully responsive section of itjobxs.com using HTML, CSS, JS, ensuring a seamless user experience across various devices.
- Improved website security by implementing user verification, authentication, and Google Recaptcha, successfully reducing fake bots, spam, and unauthorized posts.

Real Happiness of Life Foundation | Web Developer (Volunteer)

WFH, India | Apr 2022 - Jan 2023

- Contributed to the team's success by creating responsive EJS pages and implementing a volunteer page with a form to gather volunteer information for program enrollment.
- Enhanced user interaction and content organization by developing a clean, responsive career page that streamlined the job application process.
