PROJECTS

OFF BOARD CHARGER USING PV ARRAY

In this project two converters namely boost converter and bi-directional converter are used in the absence of solar to charge the battery using bi-directional converter during sunshine hours backup battery gets charged along with with the EV battery and during non sunshine hours backup battery charger supports the EV battery.

ANTI SLEEP ALARM FOR DRIVER WITH AUTOMATIC BRAKING

There has been a very large increase in road accident due to drowsiness of driver while driving which leads to enormous fatal accidents .The driver lose his control when he falls sleep which leads to accident .This is because when the driver is not able to control his vehicle at very high speed on the road. This project can generate a model which can prevent such accidents.
