- Users can access and manage their health and fitness data on any device
- Platform includes features such as tracking workout progress, setting and achieving fitness goals, and connecting with other users for support and motivation.

Full Stack Developer, YESINFOVEE TECH PVT LTD (Internship), Tamil Nadu(Thiruchengode)

January 2021 - June 2021

1. Developed a mini project with 12 calculators using HTML, CSS, and JavaScript.
2. Utilized HTML to create the structure and layout of the calculators.
3. Used CSS to design and style the calculators for an attractive and user-friendly interface.
4. Implemented JavaScript to add functionalities and logic to the calculators.
5. The calculators include basic mathematical operations like addition, subtraction, multiplication, division, etc.
6. Also included some advanced calculators like BMI, loan calculator, age calculator etc.
7. Used responsive design to make the calculators compatible with various screen sizes and devices.
8. Tested and debugged the calculators to ensure they functioned correctly and efficiently.
9. Deployed the calculators on a website or web page for easy access and use. <http://multicalculator.yesinfoveetech.com/>
