## PROJECT

### Antibacterial activity of citrus fruits peels

- Antibacterial activity of citrus fruits peels ( Mosambi ,  
Lemon, and Sweet orange).
- Conducted comprehensive research to investigate the  
antibacterial properties of citrus fruit peels against a range of  
bacterial strains. Utilized microbiological techniques to  
isolate and culture bacterial strains, including common  
pathogens such as Escherichia coli and Staphylococcus  
aureus.

## CETRIFICATIONS

- Completed Medical coding basics and advance in Akode institute  
Puducherry.

## EXPERIENCE

- Worked as Administrator and Teaching staff in Global art in  
Chidambaram.
