## OBJECTIVE

To leverage my expertise as a healthcare and diagnostic professional in a hospital setting, utilizing my skills in laboratory techniques, diagnostic imaging, and quality assurance to contribute effectively to patient care and diagnostic accuracy. Seeking a dynamic environment where I can further enhance my skills and make meaningful contributions to healthcare outcomes.

## EXPERIENCE

### Lab care Diagnostic

02.06.2014 - 30.09.2017

Laboratory Assistant

Proficiency in specimen collection, processing, and analysis. Skilled in maintaining lab equipment, following protocols, and ensuring lab cleanliness. Detail-oriented with a strong commitment to accuracy and safety.

### Ram krishna care hospital

01.10.2017 - 08.12.2018

Junior Microbiologists

Responsible for assisting senior staff in conducting microbiological tests and experiments, analyzing samples, and recording data. Duties include preparing cultures, performing microbial identifications, and maintaining laboratory equipment. Strong attention to detail and adherence to safety protocols are essential. Opportunity for growth and learning in a dynamic laboratory environment. Infection control involves preventing and managing the spread of infections in healthcare settings through policies, education, surveillance, and collaboration with healthcare professionals.

### Aiims Raipur

10.12.2018 - 25.05.2019

Laboratory Technician

Responsible for supporting research efforts in neonatal sepsis project by performing laboratory tests, analyzing samples, and recording data. Duties include processing blood cultures, performing microbial identifications, and conducting antimicrobial susceptibility testing. Collaboration with research team to ensure accurate data collection and interpretation. Strong attention to detail and adherence to laboratory protocols are essential.

### Aiims Raipur

27.05.2019 - 25.10.2020

Junior Laboratory Technician

Supporting research efforts by processing blood samples, conducting microbial cultures, and analyzing data to combat neonatal sepsis. Passionate about improving child health outcomes and collaborating effectively in a team environment.

## SKILLS

1. Healthcare & Diagnostic Expertise: Proficient in laboratory techniques, diagnostic imaging, and research methodologies. 2. Quality Assurance: Ensure adherence to regulations and maintain high standards of quality control. 3. Problem-Solving: Ability to troubleshoot technical issues and devise innovative solutions. 4. Teamwork: Effective team player, adept at working in multidisciplinary environments to achieve objectives.
