## Summary

A goal oriented Frontend developer seeking an entry level position in the software industry. With strong skills and a sense of ownership determined to continuously enhance his abilities and expand his knowledge aims to contribute to a company's mission and goals by utilizing his expertise to assist in achieving success.

## EXPERIENCE

• **Webmobi360**  
(Frontend developer Intern)  
(October 16, 2023 – April 12, 2024)

- Design, test, and debug web applications or websites.
- Create user interfaces with HTML, CSS3, ReactJS, JavaScript, bootstrap5 & Tailwind CSS.
- Use Git for code management and collaboration.
- Explore new technologies and best practices in web development.
- Work with designers, developers, and project managers to meet goals.

• **INFOTRIXS**  
(Frontend developer Intern)  
(July 03, 2023 – August 03, 2023)

- Collaborated with team and senior developers to conceptualize and execute innovative solutions.
- Led a cross-functional team in improving customer satisfaction, resulting in a 50% increase in positive feedback and a 20% reduction in complaints.
- Identify and address technical challenges effectively.
- Write unit tests and debug codes to ensure functionality

## PROJECTS

• **GitHub Profile Searcher**  
GitHub Profile Searcher, Successfully reduced the search time by 30% and increased user satisfaction by 25%.

• **Portfolio(Website)**  
This is a piece of working experience.

• **Amazing Animation Websites**  
Create visually stunning and engaging user experiences through the power of animation.
