Technologies: Flutter, Node, Razorpay, Plaid SDK, Stripe

Company: Creatah

Role: Senior Flutter Developer

App Link:

<https://play.google.com/store/apps/details?id=com.buildup.app.android>

DESCRIPTION:

creating a ecosystem designed to empower consumers to support small businesses in their community and earn rewards for doing so.

With the rise of online shopping and e-commerce giants, small businesses have struggled to compete and survive. Our platform aims to level the playing field by incentivizing consumers to shop locally and support small businesses in their area. Our platform will create a transparent and secure system for tracking consumer purchases and rewarding them for supporting small businesses. Consumers can earn badges and our native token coming soon to build wealth in our ecosystem by shopping at participating small businesses and completing certain actions, such as leaving a review or referring a friend.

But our platform isn't just about earning rewards. We also provide a comprehensive directory of small businesses in the area, making it easy for consumers to discover new local businesses to support. In addition, our platform offers tools and resources to help small businesses improve their online presence and reach a wider audience.

By being a part of BuildUp, consumers can contribute to the growth and prosperity of their local community. And with our platform, they begin to help battle the economic wealth gap.

Join us in building a more sustainable and equitable economy, one small business at a time.
