PROJECTS

Shopping management

📅 Date period 📍 Location

This document brief up the project titled Online System Shopping Management. The main objective of our project is to provide users with an online experience for buying computers. This project helps the user to check the rates on the net and compare them, and also view and purchase more products that are related to computers like accessories and everything.

This project gives a clear user Interface as to what detail the user requires about every computer present in stock and also every detail of the accessories etc.

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)
