PROFILE

Detail-oriented UI Developer with one year of experience crafting visually appealing interfaces using HTML5, CSS3, and JavaScript. Experienced in translating design wireframes into responsive web pages. Seeking to further develop skills in a collaborative and innovative environment.

WORK EXPERIENCE

UI Developer

SKAD IT Software Solution   2023-2024

- Developed and maintained user interfaces for Edifice's products using HTML5, CSS3, JavaScript, Bootstrap, and WordPress.
- Collaborated with design and development teams to implement responsive designs and ensure seamless user experiences.
- Implemented best practices for accessibility and cross-browser compatibility to enhance user engagement.
- Optimized website performance by refining code and incorporating efficient design techniques.
- Contributed to the development of new features and enhancements, aligning with project timelines and requirements.
- With hands-on experience as a UI Developer at Edifice, I have successfully developed and maintained a variety of websites using our proprietary content management system, Edifice CMS.
- For a diverse array of clients including Skad IT Solutions, Hexagon IT Solutions, Alphatronics Machinery, Compliant Expert, and others, where I actively contributed as the primary developer.
- where I actively contributed as the primary developer, leveraging my strong expertise in UI development.
- CSS media queries are used to apply different styles based on various factors such as screen width, device orientation, and resolution. They enable developers to create designs that respond to the user's device characteristics.
