EXPERIENCE

Full Stack Developer   August 2023 - Present
Idea2Reality   Udaipur

- Currently engaged in multiple web projects, employing diverse technology stacks to achieve project objectives.
- Leading development efforts for an Agro-Pharma website utilizing MEAN Stack architecture, ensuring seamless integration of MongoDB, Express.js, AngularJS, and Node.js.
- Spearheading the development of a hotel booking website leveraging the MERN Stack (MongoDB, Express.js, React.js, Node.js), responsible for both client-side and server-side logic implementation.
- Instrumental in UI design using HTML, CSS, and Bootstrap, ensuring responsive and visually appealing website interfaces.
- Actively contributing to the creation of server-side APIs and client-side logics, fostering collaborative development processes for efficient project execution.

Intern   December 2022 – July 2023
Papasiddhi Information & Technology   Udaipur

- Played a pivotal role in the development of an Exam Preparation website, demonstrating proficiency in a wide array of technologies including Java, Spring Boot, Hibernate, AngularJS, and MySQL database.
- Collaborated effectively with the development team to design and develop server-side APIs, enhancing the functionality and performance of the web application.
- Contributed to the development of client-side logics, leveraging various frameworks and libraries to achieve project objectives effectively.
- Contributed significantly to the creation and implementation of responsive website designs, catering to diverse user devices and screen sizes.

Senior Research Analyst   December 2020 – December 2022
Arcgate   Udaipur

- Conducted in-depth analysis of contracts, with a focus on identifying and evaluating important accounting terms to ensure compliance and mitigate financial risks.
- Led data entry and management tasks on Salesforce, ensuring accurate and timely recording of essential information to support sales and operational activities.
- Played a key role in streamlining processes related to contract analysis, contributing to increased efficiency and effectiveness in contract management practices.

Lecturer   January 2019 – December 2019
Pacific Institute of Technology   Udaipur
- Delivered lectures on a range of subjects within mechanical engineering including Mechanics, Strength of Materials, and Fluid Mechanics, fostering comprehensive understanding and academic excellence among students.

Lecturer   January 2015 – November 2018
Techno India NJR Institute of Technology   Udaipur
- Delivered lectures on a range of subjects within mechanical engineering including Mechanics, Strength of Materials, and Fluid Mechanics, fostering comprehensive understanding and academic excellence among students.

TECHNICAL SKILLS
- Java, Spring Boot, JDBC, Hibernate, Spring MVC, JSP
- AngularJs, ReactJs
- ExpressJs, NodeJs
- HTML, CSS, JavaScript, TypeScript
- MySQL, MongoDB
- Software Solutions, JBoss
- Git

CERTIFICATION
- Full Stack Java Developer: Simplilearn – Dec' 2022
- Capstone Project Completion: Simplilearn – Dec' 2022
- Develop a Web Application Using Frontend Stack: Simplilearn – Dec' 2022
- Implement Frameworks the DevOps Way: Simplilearn – Nov' 2022
- Backend Expert: Simplilearn – Oct' 2022
- OOPS using JAVA with Data Structures   Simplilearn – Aug' 2022

EDUCATION
M.Tech. | Production & Industrial   **2023**
Pacific University   Udaipur
CGPA – 9.14

B.E. | Mechanical Engineering   **2013**
College of Technology & Engineering   Udaipur
Percentage – 62.40
