Project Work

Search Recipe

• This project entitled "Search Recipe" is a web application that aims you provide recipe suggestions based on the ingredients you have in your fridge.

• The server side language in this program is PHP - WordPress, the back-end design is MySQL and PHP, and the front-end tools are HTML, CSS, and JavaScript

• This site is designed to help you find recipes based on the ingredients that you have in your fridge.

• All you need to do is enter in the ingredients that you have and the site will give you some recipe recommendations.

• The site will also give you an estimate of how long each recipe will take to make, so you can plan your meals accordingly

I hereby declare that all the information given above is true and correct to the best of my knowledge.

Date: Yours Truly
