Panavila

Intern-Python Full Stack Developer
Quest Innovative Solutions Pvt
· Website development based on Django framework
· Database Management System

PROJECTS

ROYAL ELECTRONICS SERVICES

📅 2023

This is a Python Project with User,Staff and Admin.This website helps to streamline the process of requesting and receiving electronic device repairs. Users can select their device type and model whether to check their device is repairable or not. Online booking is available for user to schedule appointment for device repair.

Staffs can choose which device to be serviced. Once a repair request is submitted, user can track the progress of device repair process, which can provide estimated completion time and amount.

· **ADMIN**
· Controls all other modules
· View all appointment details
· **STAFF**
· Can accept or reject appointments
· Accept appointment and make estimation
· **USER**
· Register and login to user website
· Can make appointment and can cancel it
· Can make tracking of servicing
· Can accept or reject estimation made by staff
