Computer science graduate proficient in Programming Languages and Networking

TECHNICAL SKILLS

- **Languages   - Python, C, Java, HTML, CSS**
- **Framework   - Django, Flask, Bootstrap**
- **Databases   - PostgreSQL, MySQL**
- **Troubleshooting(Hardware,Software),Networking,OS(Windows10,11), Communication Skill**

EXPERIENCE

Python Full stack Developer (Intern)   09/2023 - 02/2024

Futura Labs – *Calicut*

Hostel Management

- Developed a comprehensive Hostel Management System using **Python and the Django Framework**. The system follows the **Model-View-Template (MVT)** architecture
- Utilized **PostgreSQL** as the backend database to store and manage data efficiently
- students to view **menus, receive crucial announcements, Share feedback, Check hostel room availability, Access food menu**
- Aimed at enhancing the overall management of hostel administration, student accommodations, and parent details. By centralizing all relevant information

PROJECT

Autocratic

- Developed a web and Android-based application named Autocratic to **connect mobile devices to the web platform**
- Facilitates users in **accessing, tracking, and managing their mobile data remotely through the Autocratic website**
- Designed to be **compatible with any system, regardless of the operating system**
- **Minimal system requirements** ensure broad accessibility and usability
- Technologies Used - Python, HTML, CSS, Android, Flask

EDUCATION

Bachelor of Science - Computer Science   09/2020 -05/2023

College of Applied Science Vazhakkad – ***University of Calicut***

 CGPA 6.0

LANGUAGE COMPETENCIES

- English
- Malayalam
